Notice to Assessors. The Assessors of the several townships of Ashland County, Ohio, are requested to meet at the Auditor's Office, in Ashland, on Saturday, April 14, 1888, at 1 o'clock P. M., to receive their instructions and the necessary data for the performance of their respective duties.

R. M. CAMPBELL, Auditor Ashland Co.

CIRCULATE. We are every democrat who has the good of the party at heart, and desires its success in the approaching campaign, to consider himself a committee to procure subscribers for the "States and Union" permanently if possible; and if not, at least for the campaign. It will not be difficult to find men to subscribe, now in the commencement of a very exciting campaign. We will endeavor to make the paper instructive and useful to its readers, and promote to the best interests of the Democratic Party, and all we ask is, that those who are desirous of helping forward the good cause, will aid in increasing our circulation. Then let every neighborhood get up a club for the "States and Union," and the cause of Democracy will triumph this fall in this county. C. S. G. S. V.

JOHN RANDOLPH. Randolph was an attorney lying on a sofa in the parlor waiting for the stage to come to the door. A dandified chap stepped into the room with a whip in hand, just come from a drive; and, standing before the mirror, arranged his hair and collar, quite unconscious of the presence of the gentleman on the sofa. After attitudinizing for awhile, he turned to go out, when Mr. Randolph asked him: "What time is it?" "Has the stage come?" "No, sir." "Then nothing to do with it, sir?" "Oh, beg your pardon," said Randolph, "I thought you were the driver!"

R. M. CAMPBELL, J. P.

When the tenure-of-office bill was under discussion in the Senate, Mr. Sherman said:

I take it that no case can arise, or is likely to arise, where a Cabinet minister will attempt to hold on to his office after his chief desire is his removal. I can scarcely conceive of such a case. I think that no gentleman, no man with any sense of honor, would hold a position as a Cabinet officer after his chief desired removal, and therefore the slightest intimation on the part of the President would always secure the resignation of a Cabinet officer. For this reason I do not wish to jeopardize this bill by an unimportant and collateral question.

Mr. Williams, in the House, when commenting upon the same bill, and urging its passage, remarked:

I have no doubt that any Cabinet minister who had a particle of self-respect and we can hardly suppose that any man would occupy so responsible an office without having that feeling. I would desire to remain in the Cabinet after the President signified to him that his presence was no longer needed. As a matter of course the effect of this provision will amount to very little, one way or the other; for I presume that whenever the President feels proper to rid himself of an officer, he will signify that desire, and the minister will retire, and a new appointment be made; but it was considered by the committee of conference that this report was in accordance with the spirit of the bill, and the only one on which we could agree.

Upon the President submitting the act to the members of his Cabinet, Mr. Stanton opposed it on the grounds of unconstitutionality, and supported the veto. And yet the same man now holds office by virtue of the provisions of the bill in question, in defiance of the officially expressed dissent of the President, and both Mr. Sherman and Mr. Williams applaud his course. Measure Mr. Stanton by the opinions of his political friends, and he is a saint pattern.

A Wonderful Pump.

The heart of an animal is a miniature force pump, having pump and discharge pipes, and complete set of valves. It has a world of work to do during a lifetime of seventy years. Each minute the human heart beats about seventy times, at each reaching and discharging two and one-half ounces per minute, 656 pounds per hour 72 tons per day, and in 70 years about 200,000 tons. No pump ever constructed by man has continued to work so steadily, without derangement and without repair though that is saying too much; for by wonderful mechanism, it repairs its own wear until the end of life.

DO NOT forget the place to get your Wall Paper, it is at ZUVER'S Book Store.
